## Partners CPD COVID-19 Resources

*Partners CPD is committed to helping the Partners System with learning and training needs and resources. Below is some helpful information regarding the ability to earn CME credit during this COVID-19 pandemic.*

- COVID-19 learning and training activities can receive CME credit under different guidelines. We have a proposal form, Rapid COVID-19 CME Proposal, that can be used for coronavirus educational activities.
- Examples of activities include: bedside learning, phone interview with a faculty member who will be having a COVID-19 discussion later that day, Emergency Department morning brief, etc.
  - Link to form: <https://av192.infusionsoft.com/app/form/web-form-submitted1>
- Currently, **we do not need to collect COVID-19 planner or speaker disclosure forms, resolve or disclose information.** Please note, as always, employees or owners of pharmaceutical companies or device manufacturers should not facilitate any activity.
- We are supporting and encouraging all programs to change their activity formats to remote and we will completely help you with the process.

If you have any questions, please do not hesitate to reach out to us at [PartnersCPD@partners.org](mailto:PartnersCPD@partners.org)

---

### Virtual Meetings via Zoom

The videoconferencing platform Zoom is HIPAA compliant when you set it up through Partners IS. For more information on setting up a Zoom account, please email us at: [PartnersCPD@partners.org](mailto:PartnersCPD@partners.org)
