Partners CPD COVID-19 Response

Tidbit Page – April 7, 2020

Partners CPD is here to support your educational, training and implementation needs during this difficult time. We will be sending you tips and information on virtual meetings, educational opportunities and best practices.

CPD's plan of action to help educational and training activities over the next month:

CPD Calendar:

Tuesday

Tidbit Page – Weekly helpful tips and information on topics such as best practices for virtual meetings, etc.

Wednesday

Bi-weekly CPD Newsletter provides information about our education courses and in-hospital series.

Thursday

Weekly Zoom meetings with Course Directors and Course Coordinators to provide helpful information and answer any questions about learning activities.

We updated our website with a COVID-19 Resource section, cpd.partners.org, that will include educational resources for clinicians, virtual meeting resources (highlighted below), rapid approval for COVID-19 CME proposals (highlighted below), and a mental health corner.

- Virtual Learning Space for Course Coordinators – We are updating our Virtual Learning Space, <https://cpd.partners.org/series-coordinators>, where course coordinators can post their questions and interact with each other and CPD.
- Inform the system about the new Rapid CME COVID-19 Proposal that allows for almost immediate approval of COVID-19 activities. Our accreditor, ACCME, has reduced their disclosure requirements for COVID-19 activities. Link to form: <https://av192.infusionsoft.com/app/form/web-form-submitted1>
