

Hypercoagulable work up

Antiprothrombin Ab

Anticardiolipin Ab

Antithrombin III

Beta 2 glycoprotein I Ab

Factor V leiden

Homocysteine

Ig G

Ig M

Lupus Anticoagulant (if positive must draw a second time to confirm. Can be done on anticoagulation)

Protein C Ag

Protein S Ag

Prothrombin gene mutation

Inflammatory lab work up:

ESR

RF

CRP

ANA

Cold Agglutinins

Anti centromere Ab

Anti SCL Ab

ANCA

C3

C4
