

# Take Advantage of Employee Perks!

The Perks Program offers discounts and programs from organizations and retailers in the Boston area and beyond. Both Brigham and Women's (BWH) and Massachusetts General (MGH) hospitals offer employee Perks programs, and most of the Perks are available to all Partners Graduate Medical Education (GME) trainees (i.e. residents and fellows).

Some programs, such as Bodyscapes at BWH, Blue Bikes, and child care discounts through Bright Horizons at Landmark, are not available to GME trainees, except for fellows in Brigham-based programs. This is because these offers are funded by the hospitals (as opposed to arranging for the discounts).

Below is a summary of what offers and discounts are available to you during your residency or fellowship. For complete details, visit [www.AskMyHRPortal.com](http://www.AskMyHRPortal.com) and search "Perks."
