

**GME PROGRAM IMMUNIZATION REQUIREMENTS**

PLEASE PROVIDE DOCUMENTATION OF THE FOLLOWING:

- Tuberculosis Screening (TB) - REQUIRED.**
  - **ONE** negative TB blood test - **MUST be at least 3 months prior to start date OR**
  - **TWO** negative TB skin tests: **the second test at least 3 months prior to start date**
  - **If you have had a positive TB test, you MUST** provide documentation of the positive test, proof of a negative CXR (ruling out TB), and a symptom review. (If you don't have documentation of this, the OHS clinician will determine next steps.)
  
- Measles, Mumps, and Rubella (MMR) - REQUIRED.**
  - **TWO** MMR vaccines **OR**
  - Blood test that shows you are protected against all three diseases
  
- Influenza (FLU) – Required annually only during Flu season, typically August through March.**
  - Influenza (FLU) vaccine
  
- Chicken Pox (Varicella) - REQUIRED.**
  - **TWO** varicella vaccinations **OR**
  - Blood test that shows you are protected against the disease
  
- Tetanus(Tdap) – REQUIRED.**
  - At least one Tdap after the age of 12
  
- Hepatitis B - Recommended for employees who may be exposed to blood or body fluids as part of their job.**
  - A completed HEP B series and a positive titer that shows you are protected against the disease

\*Additional requirements may be requested/necessary based on job role. If you are missing any items from the list, Occupational Health will review and assist you with obtaining the required immunizations based on your role.
